Re: Ohio River Park Site
Intrinsic Remediation Study

Dear Mr. Roman:

Dames & Moore will begin installing nine new monitoring wells at the Ohio River Site on Tuesday, May 28, 1996. These new wells are being installed in support of the ongoing intrinsic remediation study. Their approximate locations are shown on the attached drawing.

Please call the undersigned at 412 / 471-4350 with any questions you may have on this notification.

Sincerely,

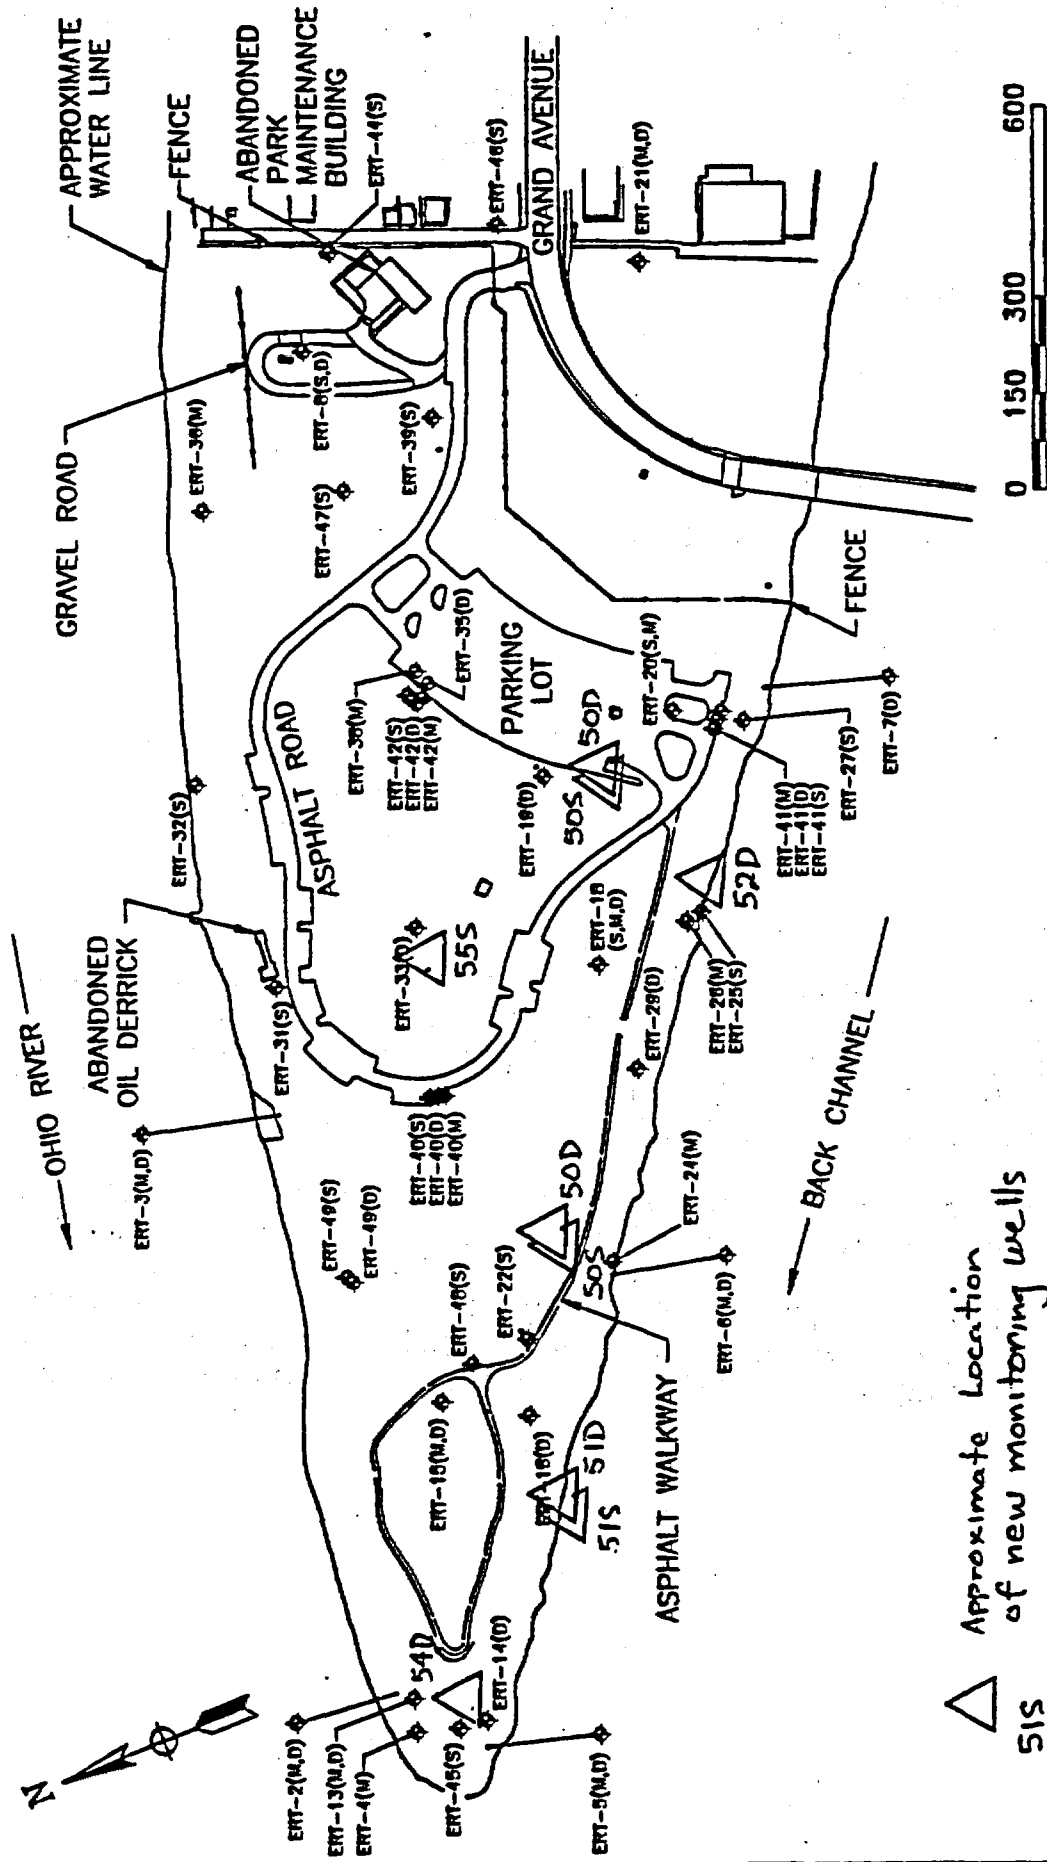

DAMES & MOORE, INC.
